8. Review of Arab-Israeli and
Suez Developments

a. The Chairman again stated that the Watch Committee had performed its function well in reporting on recent military developments affecting the Arab-Israeli and Suez situations. He noted that the President had appreciated that fact, and had also expressed interest in data appearing in the latest report by the IAC Ad Hoc Working Group on the Arab-Israeli Situation.

b. After noting the 25 October report of this Working Group, the members agreed, following discussion, that the report be given normal distribution, subject to the deletion of the political section (Part II) and the conclusions (Part III). The members also agreed that the cover of this publication should carry a special notation indicating that it summarized military strengths as of 25 October 1956, and did not reflect military dispositions or developments since that time.

c. The members also exchanged views generally on the question of whether reports by the Arab-Israeli Working Group should properly include not only facts but also estimates or evaluation of

data presented. In the course of their discussion, the members concurred in the view that, generally speaking, reports of this group should attempt only to set forth relevant facts bearing on the Arab-Israeli situation.

d. The question was raised as to what the nature of the intelligence community's effort should be with respect to reporting on current developments. General Cabell stated that the Watch Committee should not undertake "situation" reporting, but should focus its attention in the Middle East on evidence, if any, of Soviet Bloc involvement. During the discussion it was also noted that the IAC Ad Hoc Working Group on the Arab-Israeli Situation would be in a position to report on important developments. With regard to daily reporting, the Chairman referred to the publications issued on a daily basis by the various IAC agencies, and noted that the Office of Current Intelligence of CIA would regularly keep in close touch with other members of the intelligence community.

9. Executive Session

At the suggestion of General Cabell, the members went into executive session at 1145 to discuss certain matters bearing on the Arab-Israeli situation.

10. Continental Air Defense
Command Briefing

Upon the resumption of the regular session at 1215, General Cabell suggested, and the members concurred, that, in view of the present situation, the scheduled trip of IAC members to CONAD be postponed. General Cabell noted that he would so advise General Partridge and that the matter of rescheduling the visit could be discussed at a later date.
